

Eduardo: It takes a whole city to raise our children

Mobilizing the community to support parents and teachers to improve neighborhood schools

Providing expanded learning opportunities to prepare Richmond's children for the new jobs and new economy

Working to bring good healthy jobs to Richmond so our children will see the possibilities of a healthy productive future

Demanding that industry meets guidelines that protect the air we and our children breathe

Creating a more nurturing environment for our children with safer parks and recreational programs

Eduardo Martinez

Marilyn Langlois

Marilyn: My priority is to Build a Healthy Richmond for All

Healthy jobs- removing barriers to employment, attracting clean tech jobs, strengthening local hiring ordinance, promoting worker cooperatives.

Healthy lifestyles- increasing access to sports, recreation, and healthy food, and discouraging excessive consumption of sugary beverages.

Healthy relationships- eliminating racism, protecting human rights, resolving conflicts peacefully, and celebrating the cultural richness of our diverse community.

A healthy environment- reducing toxic pollution, promoting renewable energy, public transit, bicycling and walking, and protecting our precious shoreline.

A healthy economy- highlight our assets--people, values and location--to attract socially just investment in our community.

Estimados amigos y amigas

Los candidatos progresistas para el consejo de la ciudad de Richmond son el compañero maestro **Eduardo Martinez** y la compañera **Marilyn Langlois**, quien
